

IT ONLY TAKES ONE DAY TO CHANGE A LIFE

Volunteer with California Careforce and transform the lives of individuals and families in our underserved communities

1 in 10 Californians remain without medical insurance. An even greater number forgo regular vision and dental care, some even unable to afford even a simple pair of glasses that will let them see the world clearly.

California CareForce is a group of like-minded volunteers who have come together to do something to combat the inadequate access to healthcare suffered by the most vulnerable in our communities.

Since 2011, 10,000 volunteers have helped deliver free medical, dental and vision care to over 22,500 people at 3-day clinics across the state.

Join us and help make a difference in your community. Visit www.californiacareforce.org for more details
